Station Wagon

Beauty—with a Double Duty!

MEET the first Futuramic Station Wagon—a matchless car for freedom and fun or for general utility use. It has the free-flowing lines which characterize the greatest name in styling—FUTURAMIC. And there are two new engines available—the high-compression “Rocket” Eight and the new “Big Six.” Here is an ideal all-purpose car—smart good looks, “The New Thrill” in performance, *plus* an amazing adaptability to your everyday needs!

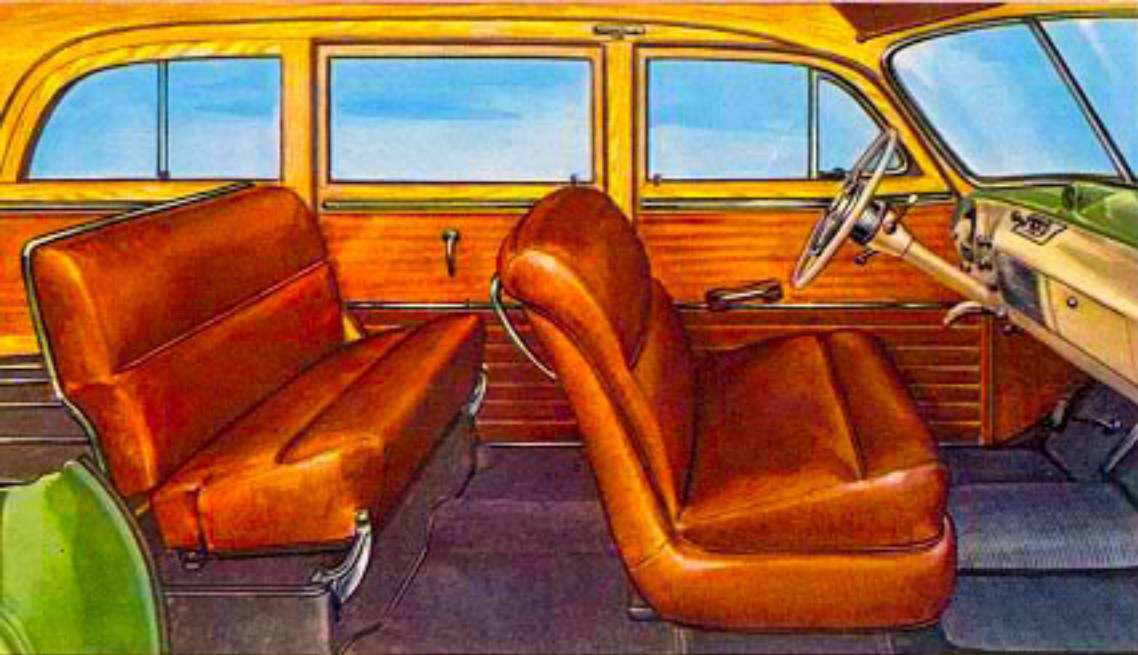

1 SIX CAN RIDE IN SOLID COMFORT

Six persons are never crowded here. Seats front and back are full width and deep. Tastefully tailored in leather upholstery on a base of foam rubber, each seat provides ample room for three adults—with space for *all* their luggage in the completely carpeted rear compartment.

2 REAR SEAT FOLDS FLUSH WITH FLOOR

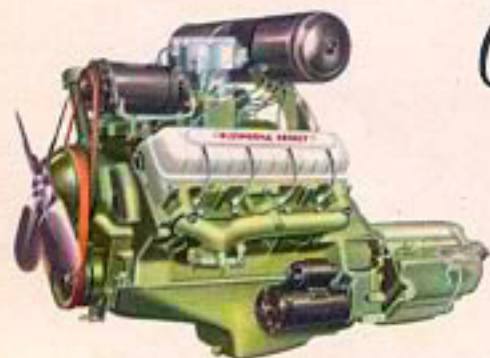

Oldsmobile presents another new feature. A slight pressure on the back of the rear seat... and presto! The seat folds forward flush with the floor. Instantly, there's more than 28 sq. ft. of level luggage space available. It's a Futuramic feature—finger-tip control for extra room.

New Smartness

IN INTERIOR STYLING!

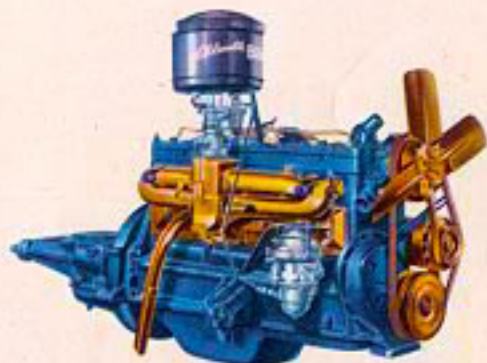

Here for the first time is Futuramic styling in a Station Wagon. Inside this brand new Body by Fisher, the smart good taste of Futuramic design is instantly evident . . . in the sleek simplicity of the dash—the superb color combinations—leather upholstery—mahogany veneer panels—and De Luxe hardware and appointments throughout.

A New Thrill

IN FLASHING PERFORMANCE!

The Futuramic "88" Station Wagon is powered by the high-compression "Rocket" Engine—the smoothest, most responsive motor in its field. The Futuramic "76" has new power with the remarkable "Big Six" Engine. No matter which you choose, you'll know what we mean by Oldsmobile's "NEW THRILL!"
