

1986 Oldsmobile

There is a special feel
in a Cutlass Ciera,
Cutlass Cruiser,
Cutlass Supreme
and Calais.

A Special Feel

Feelings, very special feelings, are yours to enjoy in every new 1986 Oldsmobile. Here, we invite you to discover the feeling of pride and satisfaction that's yours every time you take the wheel. The feeling of excitement every time you move along a turnpike. The feeling of solid dependability every time you turn the key. Oldsmobile specializes in creating feelings that delight the mind and please the spirit. Now you are invited to discover them for yourself in Cutlass Ciera...its fun-to-drive style is making it a leader in its class. Cutlass Supreme. Its performance, grace and style have made it the most popular car of the eighties. Calais...the excitement that comes with driving this sporty, front-wheel drive Olds is a new feeling for a young, new world. Cutlass Cruiser...a very stylish Olds that's also a very hard working wagon. Now for 1986, Cutlass Ciera and Calais will offer three ride systems. The smooth, standard boulevard ride of the Level I (standard) system. The firm ride and handling of the Level II (F41) system. The true sports touring suspension of Level III (FE3). Feelings. Oldsmobile offers you many ways to experience them. Now we invite you to find the Olds that feels right to you.

Cutlass Ciera Brougham Sedan

A marvel to look at.
A marvel to drive.

When specialists design a car that's so thoroughly correct... it can only be a winner. For example, Cutlass Ciera Brougham is not only a technological marvel, but it's also marvelous to look at and fun to drive. Created with state-of-the-art computers. Manufactured by smart minds using advanced robotics for precise fit and finish. The quality shows, especially in its ride. MacPherson strut suspension and rack-and-pinion steering, coupled with steel-belted radial-ply tires, iron out the road. And for performance, a 2.5-liter electronically fuel-injected engine is standard. For added performance, get the 2.8-liter V6. Style, technology and performance unsurpassed in its class.

Cutlass Ciera Brougham

Times have changed. Styles have changed.
But one thing always stays the same... Oldsmobile elegance.

Comfort mixes elegantly well with the world of advanced engineering in Cutlass Ciera Brougham. Brand new easy-care fabrics surround you from head to foot. Press down on the divided bench seating upholstered in new, thick, rich Paris velour. Or choose optional Sierra grain leather in seating areas. It's offered in three handsome shades. Now examine this interior world's many available options. Choose the electronic instrument panel, electronic auto trip calculator, and Delco-GM sound (there are four). Power features include: air, windows, driver's six-way seat and rear defogger, plus standard power steering and brakes.

Cutlass Ciera Brougham Coupe

Its fun-to-drive style keeps
up with the winner in you.

The true test of a good car is how good it makes you feel. Well, Cutlass Ciera Brougham Coupe is designed to keep you feeling great day after day, year after year. How? With great styling and computers! All kinds of them. Ones that aided in its design and others that helped build it. And still others that, years later, will go on monitoring it. For example, the standard electronic fuel-injected 2.5-liter engine has an on-board computer that constantly checks and rechecks 20 vital engine functions. Plus, many available options are connected to the on-board computer, like air conditioning, electronic cruise control and auto trip calculator. Yes, you're going to like it. So much so you may never want another.

Cutlass Ciera Sedan & Coupe

Give your standard
of driving a lift.

What makes the most affordable Cutlasses of all such a good value? A combination of many winning attributes. Some you see. Some you don't. For instance, under Ciera's sleek, stylish lines, there lies a specially treated tough steel body that's soaked in rust resistant primers, sealers and waxes. They say, "No" to the damaging effects of harsh weather. Inside, you will notice. Ciera's room for six, Delco-GM sound and a standard 9.5-liter electronically fuel-injected engine. Plus, 33 other impressive standard features that range from steel-belted radial-ply tires for road hugging traction and performance to power rack-and-pinion steering, power brakes and custom bench seating for ease and comfort. So, if you value your standard of driving, Cutlass Ciera's the value to get.

Cutlass Ciera ES

**Turns curves into
straights, beautifully.**

That's quite a statement. But then Cutlass Ciera ES is quite a car. Better yet...driving machine. You see, with its standard front-wheel drive and 3.8-liter sequential port fuel-injected V6 engine, it has the power to take you through bends in the road beautifully. And with its standard 4-speed automatic transmission with overdrive, Level III handling suspension, dual outlet exhaust system, Tungsten halogen headlamps, 14" Eagle GT tires, aluminum wheels, Rallye instrument panel, leather-wrapped steering wheel, floor-mounted center console shifter and bucket seats, you'll like it even more. So if you like curves and a car that knows how to straighten them out...you'll love Cutlass Ciera ES.

Cutlass Ciera GT

**Its ground hugging,
road handling performance is standard.**

Cutlass Ciera GT's performance tells you it's a driver's car. Its ground hugging, road handling capabilities inform you that it's a very special Oldsmobile. How did all this come about? Well, for starters, its high energy ignition system fires up a 3.8-liter sequential port fuel-injected V6 engine. You can tell you've got something going for you when you hold onto its leather-wrapped steering wheel. Next, put its floor-mounted console shifter that's linked to a 4-speed automatic overdrive transmission into gear. Excitement...it's sure to quicken your pulse. There's more! You get form fitting reclining bucket seats, Level III handling suspension, 14" Eagle GT tires, and more.

GT features inside and out. It's Ciera GT. It raises your standard of driving as it raises your pulse.

Cutlass Ciera

There's so much to like about the interior of your Cutlass Ciera.

You'll find a world of comfort expressed in easy-care fabrics in every new Cutlass Ciera Coupe and Sedan. For example, the standard seating is full-foam bench, covered in smart Vista velour in your choice of five colors. The optional 55/45 divided bench seat is also offered in the same five colors. So is the optional reclining bucket front seat on Ciera Coupe. Cutlass Ciera Brougham comes standard with a 55/45 divided bench seat, covered in new Paris velour in five colors. Or, choose the optional Sierra grain leather for the seating areas in three colors.

Cutlass Ciera split bench seating. Offered in smart Vista velour. Your choice of five attractive colors.

Cutlass Ciera bucket seats. Tailored in Vista velour. Four color choices.

Cutlass Ciera bench seating. Upholstered in Vista velour. Five colors.

Cutlass Ciera instrument panel with elegant contemporary look. Rallye cluster available.

Cutlass Ciera GT bucket seats. Tailored in Dark Claret Sierra grain leather in seating areas.

Available Tilt-Wheel steering features six positions for added comfort.

New high-level stop-light works in unison with rear tail lamps.

Holiday Coupe. Includes: Landau-padded vinyl roof, quarter window, sail emblems, accent stripes and tinted windows.

Complementing Duo-Color paint scheme. Five choices.

Large capacity trunk big enough to handle most everything you carry.

Available trunk-top luggage rack. Add style and room with extra carrying space.

Wheel trim. (A) Deluxe wheel discs, standard on all models. Available: (B) Wire wheel discs with locks. (C) Supers stock wheels in body color. (D) Aluminum styled with spokes (standard on GT & ES).

Electronic instrument cluster is available. Offers easy-to-understand digital speedometer, bar graph fuel level and engine temperature gauges, low-fuel warning indicator, trip odometer, English/metric conversion switch, and turn signal indicators.

Rallye instrument panel cluster. Includes: tachometer, trip odometer, voltmeter and temperature and oil pressure gauges.

3.8-liter V6 sequential port fuel-injected engine is available. Offers spirited performance.

2.5-liter electronic fuel-injected engine for power and economy.

Cutlass Cruiser

First it's an Olds.
Then it's a wagon.

No matter what you do... Cutlass Cruiser can carry your day beautifully. You see, Cutlass Cruiser is proud of its many accomplishments. For instance: just fold down the second seat (both front and rear seating are full foam) and discover 74.4 cubic feet of cargo area. There's room enough to handle just about anything. And with its optional rear-facing third seat, it handles growing families beautifully. Add to all this spaciousness, front-wheel drive, a standard 2.5-liter electronically fuel-injected engine, and power steering and brakes and Cutlass Cruiser is ready to pull you through most anything comfortably! For extra comfort, choose available air conditioning, Cruise Control, one of four Delco-GM sound systems and Tilt-Wheel steering. Cutlass Cruiser—what a great idea.

This highly functional tailgate raises easily for the convenient loading of small packages.

Loading larger items is a breeze because the one-piece tailgate lifts up and away.

With the second seat down, there are over 74 cubic feet of cargo space. It also has hidden storage.

Cutlass Supreme Brougham Coupe

When you catch one this good,
you'll never want to let it go.

No wonder Cutlass Supreme is the most popular car of the eighties. Sculptured styling that's impressively strong and aerodynamically correct. Powerful performance, too. Just step on the pedal and take control with its available 5.0-liter 4-barrel V8 engine. Yes, Cutlass Supreme Brougham is also very luxurious. For instance, you'll notice it in its ride. Quiet and smooth. You'll notice how responsive it is in the way it handles the road. Power steering and power brakes, coupled with all-season radial-ply tires all contribute to its responsiveness. And if you prefer a tighter ride, order the available Level II suspension. There's also one more benefit to owning a Cutlass Supreme Brougham — its resale value.

Cutlass Supreme Brougham

As pleasing to the eye as
it is to the rest of you.

America's favorite kind of mid-size luxury for the eighties looks like this: Rich, sumptuous, tailored with a preciseness that has pleased so many Americans for so many years. Cutlass Supreme Brougham's available power features include: windows, door locks, driver's seat, Cruise Control, rear defogger, and air conditioning. Plus, power steering and brakes are standard. Now settle back and enjoy the plushness of Supreme Brougham's full-foam seating in Summit velour. Or choose available leather in seating areas. Another luxury that's worth enjoying is its traditional resale value.

Cutlass Supreme Brougham Sedan

First class
travel all the way.

Your travel outlook never looked as good as it does when you arrive in a Cutlass Supreme Brougham. Whether you're in town or out of the city, Cutlass Supreme Brougham is a pleasure to drive. Inside, its quiet and comfortable environment is enhanced by deep, rich velour fabrics that are exquisitely tailored over deep, cushioned seats—spacious seats that offer first-class seating for six. And its long list of available features includes: air conditioning, Delco-GM sound, Cruise Control, six-way power seat (driver side only), Tilt-Wheel steering and the powerful 5.0-liter 4-barrel V8 engine. Plus, power steering, brakes and automatic transmission are standard. It's always great to go first-class.

Cutlass Supreme & Coupe & Sedan

Style and value
are always on the mark.

Style and value have been the hallmark of Cutlass Supremes for years. Their style has made them the most popular Olds ever. And their value shows up when you buy and when it's time to trade. You see, power steering, power brakes and the performance of a 3.8-liter 2-barrel V6 engine with automatic transmission are standard. Inside, comfort comes standard, too! You get custom bench seating for six, plush, wall-to-wall cut-pile carpeting and a Delco ETR AM/FM stereo with seek/scan (may be deleted for credit) and dual rear speakers for added depth of sound and clarity. Sound good? Cutlass Supreme is good! Because no matter which you choose, Coupe or Sedan, you get all that Cutlass style and value. No wonder Olds Cutlass Supreme has been, and is, a #1 choice of both past and present new car buyers.

Cutlass Salon & Cutlass 442

Performance that
tracks with the best.

Champions know each other by the pace they set. A pace that has a style and performance all its own. Oldsmobile offers two that will go head to head with the best. Cutlass Salon and Cutlass 442. First, Cutlass Salon, with its quick-ratio power steering and special suspension, takes control of the road, ironing out wrinkles with the preciseness that only its standard 3.8-liter V6 engine can do. Next, history repeats itself with the return of "442." A legend is reborn in the form of this stylish front runner with a high-output 5.0-liter V8 4-barrel engine with dual exhaust, 4-speed automatic transmission with overdrive, 3.73 ratio axle, Special Handling Package with air shocks in back and a whole lot more. Both come equipped with lots of standard features. So start 'em up and watch them "roar."

Cutlass Supreme

Comfort and convenience are yours to enjoy with Cutlass Supreme interiors.

The feeling of beauty is yours to touch with Cutlass Supreme's Coupe and Sedan standard foam-filled custom bench seat, offered in smart Vista velour in your choice of five colors. As an option, choose the 55/45 divided bench seat in the same five colors. Or the optional contour bucket seat in the Coupe, in your choice of four colors. Cutlass Supreme Brougham comes standard with a 55/45 divided bench seat in elegant Summit cloth in five colors. In addition, optional genuine leather is available in seating areas at extra cost.

Floor-mounted sporty console with automatic shifter is standard on Cutlass Salon.

Cutlass Supreme bench seating. Upholstered in elegant Vista velour. Choose from five handsome colors.

Cutlass Salon bucket seats. Tailored in luxurious Vista velour. Four colors.

Cutlass Supreme standard instrument panel with deluxe steering wheel.

Dress up your Cutlass Supreme with available two-tone paint treatment.

Available leather-wrapped steering wheel for that European grand-touring touch.

Headlamp-on reminder switch, standard. Sounds and flashes warning when door is opened.

Pulse wiper system. Provides delay-interval wipes.

Available "lift-off" roof gives you the sun, fun and air of a convertible—in a Coupe. Tinted tempered glass panels store in a carrying case. Supreme Coupes only.

Wheel trim. (A) Deluxe wheel discs, standard on all models. Available: (B) Wire wheel discs with locks. (C) Super stock wheels in body color. (D) Chrome super stock wheels. (E) Aluminum-styled with spokes.

Rallye instrument panel cluster. Includes: tachometer, trip odometer, voltmeter and temperature and oil pressure gauges.

Calais Supreme Sedan

**This act
is all together.**

Now four door convenience comes to the advanced technology and sophisticated style of Calais by Oldsmobile. That means easy access to five-passenger comfort. Front bucket seats. Plenty of rear headroom. Soft velour fabrics. And smooth, Delco-GM stereo sounds. All surrounded by solid design, contemporary good looks and computer-precise construction and fit. Take a seat and the performance begins with a spirited 2.5-liter electronically fuel-injected engine, or the available 3.0-liter multiport fuel-injected V6. Then MacPherson strut suspension, front-wheel drive and rack-and-pinion steering make Calais ready to handle whatever road tour you may have in mind. The 1986 Calais Supreme Sedan... traditional Oldsmobile quality, plus the youthful daring to be new.

Calais Supreme

Nonstop good looks.

With exterior styling as sleek as this, it only follows that Calais Supreme should have an equally elegant, special feeling interior. And it does. It starts with five-passenger comfort, fully reclining front bucket seats with built-in lateral and lumbar support and, in Calais Supreme Coupe, an "easy-entry" passenger front seat that slides forward.

Surround all that with standard Paris knit velour, door-to-door carpeting, plus available leather trim, and Calais

Supreme becomes unquestionably plush. And for convenience, front, rear and roof-mounted courtesy lamps. Console and front storage areas. And a smart door pocket for hiding travel maps. In short... Calais Supreme is as logical and elegant inside as it is outside.

Calais Supreme Coupe

A new tradition
for style has begun.

Calais Supreme Coupe has the perfect blend of sleek exterior styling, understated interior comfort and sporty road handling. Outside, Calais is smooth. Contemporary. And aerodynamic. Designed and built a whole new way, with advanced computers to ensure a precise fit, and multicoat/high-gloss enamel paint to provide an impressive finish. Inside, there's five-passenger spaciousness. Rich velour. Plush carpeting. And fully reclining front bucket seats. And on the road? Experience a smooth, responsive ride from a driving cockpit that puts every function control within easy reach. And enjoy the sportiness of Calais handling with the standard five-speed manual transmission or the available three-speed automatic. Calais Supreme Coupe. It's a new generation of Oldsmobile. And it's started its own new tradition for elegance—outside, inside and on the road.

Calais Sedan

**Get into style, fun
and performance... times four.**

It's simple multiplication. Now that it's available in a four-door sedan, you've got more ways to "get into" Calais. And that sums up to convenience, plus fun! Now, it's true that Calais was designed to be contemporary, responsive and technologically advanced. And it's easy to be fooled by the plush comfort of Stafford velour front bucket seats. Or the traditionally smooth and quiet Oldsmobile ride. But the fact is, Calais is also designed to be practical. Playful. And affordable. So, if you don't mind getting into all that style, comfort and performance while still getting a great value, then you're going to like "getting into" the four-door convenience of Calais Sedan. Of course, more doors doesn't necessarily mean that you're going to have more fun in Calais. But you might.

Calais Coupe

**Built smart...
just for the fun of it.**

It's this simple: Calais is built smart. It's designed and assembled using some of the most advanced high-tech automotive facilities ever. It's styled for sleek, good looks. Economical aerodynamics. Practical five-passenger comfort. And it's equipped for sporty, responsive performance, with a 2.5-liter electronically fuel-injected engine, standard five-speed manual transmission or optional 3-speed automatic, front-wheel drive, rack-and-pinion steering and MacPherson strut suspension. And you can specify an available 3.0-liter V6 with response-adding multiport fuel injection. Calais is smart, all right. But get behind the wheel and you forget all about "smart" and "affordable." All you remember is the fun!

Calais ES

**Solid, agile and sleek...
this is automotive fitness.**

Just like a runner prepared for competition, Calais ES has been designed, tested and built for a cross-country tour all its own. Front-wheel drive, rack-and-pinion steering, track-hugging 14" Eagle GTs and a special firm ride suspension system deliver go-anywhere handling. The fine-tuned 2.5-liter electronically fuel-injected engine has quick power. Or there's an available 3.0-liter multiport fuel-injected V6 for sprint response. But Calais ES is engineered for more than just enlightening road performance. Advanced technology, robotics and computer-assisted assembly help make it beautifully aerodynamic. Dual patch mirrors, sophisticated black trim, composite headlamps and a sleek front end only add to the good looks. And inside, breakthrough technology is not meant for dazzling, but for driver ease and comfort. Calais ES. Take hold, and ride with the wind.

Calais GT

**Find a road, any road,
and put it to the test.**

Country bends. Fast lanes. City streets. Calais GT is ready for them all. READY With the road-gripping handling of 14" wheels, Eagle GT tires and Oldsmobile's firm Level III (FE3) suspension system. READY With a cockpit driving environment of Vista velour front bucket seats, a Rallye instrument cluster and a leather-wrapped sport steering wheel. READY To turn heads with the hot good looks of low-ride fascia and aero-rocker moldings, bold composite headlamps and an illusive front grille. READY With the road machine response of a console-mounted 5-speed electronically fuel-injected 2.5-liter engine. Or you can opt for an available power-producing 3.0-liter multiport fuel-injected V6/automatic transmission combination. Calais GT. Built tough. Tight. And ready for performance. Now...are you ready for all that?

Calais More than just color and fabric, this is the comfort and feel that every driving environment should have.

When we say Calais has nonstop good looks, we mean it. That's why color-coordinated trims, pile carpeting and select velours come together inside Calais for a look that's not only beautiful, but comfortable and quiet, too. Calais Coupe and Calais Sedan seating is rich Stafford velour, available in five warm colors. On Calais Supreme Coupe and Sedan, plush Paris knit velour is available in the same colors, plus optional Carmine or Saddle grain leather in seating areas. And sporty Vista velour in Medium Gray or Saddle, is available on Calais ES.

Calais Coupe and Calais Sedan interior with Stafford velour seating in Medium Gray, Dark Teal Blue, Medium Sage, Saddle and Carmine.

Inside Calais GT, Vista velour seats are standard. Choose from two special colors, Carmine or Medium Gray.

Fully reclining front bucket seats include lateral and lumbar supports. Front passenger seat slides forward for easy entry.

Deluxe steering wheel and cockpit-style instrument cluster with electronic speedometer, trip odometer and easy-to-reach headlamp, washer and wiper controls.

Oldsmobile's multicoat/high-gloss paint finish is available in six two-tone color combinations.

Header-panel mounted courtesy lamp is standard and features an integral storage compartment for convenience.

New added safety precaution high-level stop lamp is standard.

Smart door pocket for convenient travel map storage.

Sporty 5-speed manual transmission.

Optional leather steering wheel.

The available rear deck lid luggage carrier is stylish and practical. It includes a special high-level stop lamp.

A. Standard Deluxe Wheel Disc. B. Simulated Wire Wheel Disc with Locks (N91). C. Super Stock 13" Wheel (N67) with Stainless Steel Trim Rings. D. Aluminum-Styled 13" Wheel (PX1). E. Aluminum-Styled 14" Wheel (N78).

Optional Electronic Instrument Cluster offers the newest technology in electronic instrumentation and features a multiple color crystal (LCD) display that doesn't "wash-out" in daylight. Cluster includes center-mounted digital speed readout, analog bar graph tachometer, animated warning lights and a selectable multifunction gauge for voltmeter, oil pressure and temperature.

Optional auto trip calculator performs usual mathematical functions such as addition, multiplication, etc., and features a high-tech display of time, date, trip distance, elapsed time, estimated travel time and E.T.A. — mileage since fill-up and current fuel economy are also displayed, plus an English/metric conversion switch.

Important—A word about this catalog: We have tried to make this catalog as comprehensive and factual as possible, and we hope you find it helpful. However, since the time of printing, some of the information you will find here may have been updated. Also, some of the equipment shown or described throughout this Olds catalog is available at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up-to-date. The right is reserved to make changes at any time without notice in prices, colors, materials, equipment, specifications and models. Check with your Olds dealer for complete information.

A word about engines: Oldsmobiles are equipped with engines produced at facilities operated by GM car groups, subsidiaries or affiliated companies worldwide. See your dealer for details. Please refer to the "Fuel Economy Estimate Sheet" provided to your dealer for engine source and EPA mileage estimates.

A word about assembly, components and optional equipment in these Oldsmobile products: The Oldsmobiles described in this catalog are assembled at facilities operated by General Motors or GM of Canada. These vehicles incorporate thousands of different components produced by car groups or various component divisions of General Motors and by various suppliers worldwide to GM. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to produce Oldsmobile products with different components or differently sourced components than initially scheduled. All such components have been approved for use in Oldsmobile products and will provide the quality performance associated with the Oldsmobile name. With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if the option you ordered is unavailable. We suggest that you verify that your car included the optional equipment you ordered or if there are changes, that they are acceptable to you.

Every new 1986 Oldsmobile delivered by an Oldsmobile dealer in the United States comes with a one year, \$10,000 safety belt user insurance certificate from M/G General Insurance Corporation at no additional charge. \$10,000 will be paid to the estate of an occupant who suffers fatal injuries as a result of any accident involving that vehicle while wearing a GM safety belt. Buckle up every time you drive.

Standard occupant protection features: Manual lap/shoulder belts for driver and right front passenger (driver side includes visual and audible warning system) • Manual lap belts at each rear seat position (and center front, when applicable) • Energy-absorbing steering column • Energy-absorbing instrument panel • Energy-absorbing front seat back tops • Laminated safety windshield glass and tempered safety side and rear window glass • Safety interlocking door latches • Passenger-guard inside door lock handles • Inertia-locking, folding front seat backs • Safety armrests • Head restraints, driver and right front passenger (adjustable/integral)

Standard accident avoidance features: Side marker lights and reflectors • Parking lamps that illuminate with headlamps • Four-way hazard warning flasher • Back-up lights • Center high-mounted stop lamp • Directional signal control with lane change feature • Windshield defroster, washer and dual speed wipers • Inside rearview mirror with vinyl-bonded glass • Outside left rearview mirror ("right" also standard on some models) • Brake system with dual master cylinder and warning light • Starter safety switch • Dual action hood latch system • Low-gear finish on instrument panel top, inside windshield moldings, wiper arms/blades, metallic steering wheel surfaces • Illuminated heater and defroster controls • Tires with built-in tread-wear indicators • Tire chains should not be used on a Calais model equipped with P215/60R14 tires because they may cause damage to this vehicle.

Standard theft deterrence features: Audible reminder for ignition key removal • Theft-deterrent steering column lock • Visible vehicle identification number

A word about updated service information: Oldsmobile regularly sends its dealers useful service bulletins about Oldsmobile products. Oldsmobile monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.

(a) VIN (Vehicle Identification Number) Engine Code is the eighth entry (letter or number) from the left on the vehicle serial number plate. This plate is located on the top portion of the driver's side of the instrument panel and can be viewed from outside the car by looking through the windshield. (†) Use for comparison. Your mileage and range may differ. Driving range estimates are obtained by multiplying EPA city and highway estimates by the fuel tank capacity. ‡Produced in Brazil.
